CNSS-043-10  
1 September 2010

## NATIONAL MANAGER

Tone Commander Systems, Inc./TEO Technologies, Inc.  
ATTN: Mr. Steve Walker  
11609 49<sup>th</sup> Place West  
Mukilteo, Washington 98275

Mr. Walker:

On behalf of the National Manager for National Security Telecommunications and Information Systems Security, as designated by National Security Directive 42, I am pleased to notify Tone Commander Systems, Inc or TEO Technologies, Inc. that Voice over Internet Protocol Telephone (VoIP) and ISDN Network Terminator (NT) 1 were re-approved based on the below cited requirement.

The following CNSS serial numbers, initially issued under CNSS-088-09 dated 29 October 2009, are assigned to the Tone Commander or TEO equipment:

**CNSS-A-01-2009**  
**VoIP Telephone**  
**Tone Commander or Teo**  
**7810-TSG**

**CNSS-A-02-2009**  
**ISDN NT 1**  
**Tone Commander or Teo**  
**Pre-production model tested**

**Requirement: In order to maintain a Class A rating the telephone must have the June 2010 or later Firmware update. Once the initial telephone configuration is established by the customer, the telephone must be set to only allow local firmware updates. Remote firmware updates will not be authorized.**

The Tone Commander or TEO VoIP Telephone and ISDN (NT) 1 must be resubmitted for approval if substitution of any component alters its electrical or acoustic characteristics. A random sample of these models will be tested one calendar year after CNSS approval to ensure compliance with CNSS guidance.

FOR THE NATIONAL MANAGER
