# HOW UC CAN HEAL
# HEALTHCARE

## Affordable Administration

The savings generated by a more streamlined communications architecture can be invested in improving the patient experience

## Real-Time Awareness

UC helps clinicians instantly access and relay vital updates, regardless of location or device

## Smarter Collaboration

UC helps connect the multiple providers that make up each patient's healthcare support system

## Proactive Patients

Smartly designed UC systems empower patients to become their own healthcare advocates via self-service solutions

## Digital House Calls

When video is integrated into everyday workflows, access to quality care is no longer bound by location
